PRINT PRICE LIST

We will always trim your print down to the size ordered. If you would like us to leave the print on the roll with our bleed and cut marks left around the image, please specify this when placing your order.

If you also require mounting, please see our separate mounting price list. Unless otherwise stated, you need to add cost of prints plus cost of mounting.

All prices include GST

FILE REQUIREMENTS

When submitting files to Pixel Perfect, you need to make sure they are :

300 DPI

Adobe RGB (1998) colour space

8-bit flattened Tiffs or Jpegs (Level 12)

Files need to be sized as you would like them printed, so if you require a 16" x 20" print, your file needs to be sized at 16" x 20" (including any borders)

If this is something you need help with, we will have some tutorials online soon to assist this process.
