

PIXEL PERFECT PROLAB PRICE LIST & SERVICES GUIDE

If you are looking for top quality, colour-accurate photographic products & services, you're in the right place. You deserve perfect results first time & every time so please take a moment to read this guide before you place an order.

MINIMUM CHARGE PER ORDER : A\$25

Please email production@pixelperfect.com.au for custom quotes.

PRICING IS FOR PRINT-READY FILES.

Labour charges apply to fix all non-conforming files.

Minimum labour charge : A\$12.50

Our file specifications are;

- ▶ TIFF or JPG 8-bit files with no layers or channels.
- ▶ Colour Space = Adobe RGB (1998)
- ▶ Resolution : 300ppi at required print size
- ▶ Include any borders you require as part of file.

Electronic uploads through our website are free of charge.

Only upload JPEG (Level 10) . No TIFF files.

If you want Lambda prints (not mini-lab prints) please specify in your order "LAMBDA PRINTS ONLY". You will be charged the relevant Lambda square inch rate.

We recommend B&W prints of varying sizes be done on Lambda to minimise colour variations as mini-lab uses various paper batches (in different widths) which cause minor variations.

All overseas consignments must be custom quoted.

COLOUR GUARANTEE

Our advanced colour strategies deliver prints accurately matched to your D65 ICC-profiled calibrated monitor. Soft-proofing profiles are available from www.pixelperfect.com.au/support. To use profiles, please follow instructions in the document "Working with Pixel Perfect" from Support page.

Note : To enjoy our legendary colour accuracy, the following are a prerequisite:

- a) correctly profiled graphics-monitor
- b) correct environment & lighting,
- c) correct usage of soft-proofing profiles.

VOLUME PRINTING / BULK ORDERS

Please contact the Production Manager for volume printing / bulk orders.

LIMIT OF LIABILITY

Submitting any film, print, slide, negative or digital media to us for processing, printing or other handling constitutes an AGREEMENT by you that any damages or loss by our company, subsidiary, or agents, even though due to the negligence or other fault of our company, subsidiary, or agents, will only entitle you to replacement with a like amount of unexposed film and processing or digital media. Except for such replacement, the acceptance of the film, print, slide, negative or digital media is without other warranty or liability and recovery for any incidental or consequential damages is excluded.

REPRINTS

We take pride in the quality of our work and our reputation for complete customer satisfaction. If you believe our prints were not up to our high standards, please fill out a Reprint Form at www.pixelperfect.com.au/support & return the prints. Pixel Perfect reserves the exclusive right to evaluate the supplied prints, and, at its sole discretion, supply reprints. Requests for reprints of files that do not conform to our job specifications or contain client errors or inherent faults due to capture, scanning or file preparation can be obtained at a discount rate of 50% off our undiscounted price list. Reprints are delivered free by Non-Urgent delivery. Urgent delivery requests are chargeable.

READY TO HANG (RTH) CANVAS

SERVICE TIME : 6 days

Price includes;

- ▶ printing with hi-res printer on 100% cotton canvas
- ▶ top quality archival UltraChrome K3 inks
- ▶ liquid lamination for protection & durability
- ▶ framing with quality 1.18" (30mm) stretcher bars from regrowth timber.
1.77" (45mm) stretcher bar is used on canvases larger that 30x30 inches.
- ▶ wire hanger
- ▶ basic packaging suitable for pickup

IMPORTANT NOTE
NO FURTHER DISCOUNTS
APPLY TO ITEMS ON THIS PAGE.

Shipping charges & hardcover box packing for local & interstate delivery are extra.

To convert inches to centimetres : multiply inches by 2.54

IMAGE SETUP

- ▶ To enable your image to wrap, add 2" to each side of the image.
E.g. : RTH 18 x 20" canvas, supply an image 22 x 24".
E.g. : RTH 30 x 40" canvas, supply an image 34 x 44".
- ▶ Test colour accuracy for colour-critical applications.
- ▶ Canvas does not stretch perfectly "square". Avoid straight lines near edge of the image.

Acrylic Photo Stand (black base shown)

Please inform us whether you want the base & vertical support strut to be made from black or white acrylic.

Acrylic Photo Blocks

Many thanks to
Cloud Nine Photography &
Red Pepper Studio
for use of their images

Acrylics in Photo Mounting

Acrylics by their nature are hygroscopic, and will on very rare occasions have problems of outgassing; showing up as bubbles under a mounted print. Although we only have the highest quality acrylic to minimise this problem it is impossible to totally eliminate it. Customers using acrylic as a mounting medium please be aware.

Acrylics are a fantastic mounting media for photos, especially when applied using good face-mount techniques where the photo is mounted underneath acrylic. The clarity and sparkle of the acrylic enhances the colours and vibrancy of your image while also providing protection and rigidity. The finished product looks fantastic, is very long lasting, has UV protection and is very robust – ideal for galleries and public hanging. We are experts at Acrylic face-mounting and can offer a range of innovative products to enhance your photos.

Acrylic Float Frames

This is the basic Acrylic mount – done in 3mm or 6mm with diamond polished edges and with a hidden aluminium backing frame. The Acrylic is spaced or “floats” off the wall by 12mm.

Acrylic Alupanel

In this product, the acrylic is backed with an aluminium panel producing a very strong sandwich panel. Looks fantastic and is very durable -comes with your choice of hanging system.

Acrylic Gatapanel

In this product, the Acrylic is backed with a 10mm Gataboard and finished with a black or white edging. Acrylic Gatapanel is relatively lightweight with a black or white edge relief providing a nice dimension to the finished product - comes ready to hang.

Acrylic Stands

Fantastic freestanding product, made with 10mm Acrylic to give added solidity - available in black or white base.

Acrylic Blocks

These thick acrylic blocks give a fantastic dept and sparkle to your image. No stands are required, giving them a clean elegant look - available in 20 or 30mm.

MOUNTING & LAMINATING

MINIMUM CHARGE PER ORDER = A\$25

GENERAL INFORMATION

Using the Mounting & Laminating price list

1. Measure print in centimetres or inches.
2. Add length and width together to obtain united centimetres (ucm) or united inches (uin). Eg.: 20x30cm print = 20+30cm = 50ucm.
3. Go to the relevant price list and find the column for product being priced. Read price in column corresponding to the size unit. If size of print is in between units in price list, use the next highest unit.

Rush jobs

Our normal turnaround for mounting and laminating jobs is 3 working days for most standard jobs and longer for non-standard jobs. Although we will assist our clients by undertaking "rush jobs" it must be understood that such jobs by their nature are prone to a higher risk and problems. We do not take any responsibility for problems in jobs where the turnaround is less than 24 hours.

Labour only jobs

We do not as a rule, do "labour only" jobs such as trimming of prints. We will assist our clients when requested to undertake such jobs, but only on the basis of all care no responsibility.

Couriers

Please note that we take no responsibility for your works once it leaves our premises. Since mounting and laminating jobs are fragile, we recommend that you pick up yourselves or use a courier you can trust. Your finished job will be packed securely in bubble or corrugated card and labelled with fragile stickers, but this does not guarantee against rough handling or dropping. Please note that we also have a service called "interstate pack" where your job is packed between two layers of extra heavy card with foam strips all around the sides. This form of packing is very robust and is recommended for any parcels being shipped interstate or overseas. We also recommend this for valuable work being shipped locally or if you just want extra security for your jobs. Interstate packing is chargeable – please call us for a price.

Mounting on material supplied

We take a lot of care in our selection of mounting medium to maximise the quality and longevity of your mounting job. There are many factors that can lead to long and short term problems. Some examples are moisture, material stability and surface impurities. For this reason we cannot guarantee any work undertaken on material supplied by the client.

Warranty Policy

- Customers should note that mounting and laminating is an irreversible process and by its very nature is susceptible to occasional problems from faults in the material or human error. For this reason, we recommend against mounting or laminating expensive originals.
- Should you wish to proceed with such works, please make us aware of their value so that we can handle with appropriate procedures.
- Furthermore, please note that our mounting & laminating warranty extends to the value of the services supplied by us only and does not include the value of the print.

Laminating Films & their uses

Name	Thickness (micron)	Max Width (mm)	UV (Protect)	Uses
Cold Satin	75	1560	Moderate	General purpose satin-matt finish.
Sandtex	100	1370	High	Sand textured matt film. Tough and scratch resistant.
Cold Gloss	75	1560	Moderate	General Purpose glossy finish.
Tedlar	25	1370	Very high	Outdoor applications. UV protective and anti-graffiti.

Mount Boards & their uses

Name	Thickness (mm)	Max Size (m)	Uses
Artmount	10 & 20	1.2 x 3.1	One-time-use mounting board. Lightweight and finished with black edging strip and ready to hang.
Gataboard	5, 10 & 20	1.2 x 2.4	Premium mounting board. Very smooth, lightweight and strong with an extra tough skin. Moisture resistant and readily cut and worked, it is a very usefull board. Available in black.
Customwood	3	1.2 x 2.4	Low cost mount board for smaller sizes and as backing in frames. Not recommended for larger sizes.
Customwood	6, 9 & 12	1.8 x 3.6	Very good general purpose mount board, but heavy. Also known as blockmount. Available in oversize sheets for 9 and 12mm. Can be profile cut.
Forex	3 & 5	1.5 x 3.0	Very popular mount board for displays. Lightweight, strong and waterproof. The 3mm is flexible and can be curved slightly. Can be used outdoors. Available in oversize sheets. Available in black.
Clear Acrylic	3 & 6	1.2 x 2.4	Used in lightboxes. Also use as face-mount with print viewed through the acrylic. Edges can be polished. Print on GLOSS MEDIA ONLY if face-mounting.
Styrene	0.5 & 1.0	1.2 x 2.4	Low cost, flexible backing. The 0.5mm can be rolled.
Alupanel	3	1.2 x 2.4	Aluminium skinned composite board. Very strong but lightweight. Very smooth surface for premium mounting.

Fixtures, Fittings & Misc Pricing

Item	Description	Pricing	per
Hangers	Lightweight hanger for foamboards SMALL	4.13	each
Hangers	Lightweight hanger for foamboards LARGE	4.81	each
Top Hangers	Comprising 2 "D" rings attached to the top of foamboards	13.06	pair
Split Battens	Split batten pair including spacer on bottom	43.31	per mtr
Aluminium Edging	Anodised aluminium edging applied to the edges of artmount, gataboard or customwood	23.93	per mtr
Double Sided Mounts	Double sided mount on forex, artmount, gataboard	Custom quoted

Canvas : Liquid Laminating, Stretcher-Frame

SERVICE TIME : 4 to 5 days

Stretcher frames are made of 1.18 x 1.18" (30mm) timber. Larger frames require 1.77" (45mm) timber. To enable the image to wrap around the frame add 2" to EACH side of image (4" total).

Please specify your image size and required frame size unambiguously.

Eg. : Stretcher Frame=30x40" Image supplied (including wrap)=34x44"

Canvas does not stretch perfectly "square" so avoid straight lines near the edge of the image.
